REASONS FOR ALLOWANCE

1. Claims 1-8, 11-14, and 16-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claim(s), in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in claim(s) 1, wherein the claimed invention comprises, in claims 1, 7, 8, 13, and 19, the pair of focus coils and the tracking coils have coil surfaces which are perpendicular to winding axes of the their respective coils and face the tangential direction with the object lens put therebetween, the pair of focus coils and the pair of tracking coils being shifted in left and right directions respectively away from a virtual axis which is perpendicular to the tracking direction (for the tracking coil) and the focusing direction (for the focusing coil) and being directed toward the tangential direction; a crossing point of a first virtual axis and a second virtual axis is formed at a point having a same height as a center of drive on which a drive force is exerted, the first virtual axis passing through a portion connecting an upper supporting arm of the pair of the one supporting arms, which is positioned upward (for the first virtual axis) and downward (for the second virtual axis) in the optical axis direction of the object lens, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
